

Rotary International Alumni Reconnect Week: **3rd – 9th Oct 2022** “Rotary’s Open Door”

Why not get in touch with your Rotary Alumni and invite them to your club!

Not easy to gain new members?... so try to find your Alumni... those who participated in Rotary programmes..... and invite them to your Club!

- Where are those who participated in Rotary programmes, who did you send out as a Youth Exchange student (short & long), as a Group Study Exchange Team member, a RYLA participant, and who are your past and present Rotaractors?
Do you maintain contact with them? Are they members of Rotaract? Are they members of Rotary? Are they District Alumni Association members?
- Invite ‘host’ parents to the club and ask them about their professions... offer them club membership.

You don't remember who your club sent on Rotary programmes: on Youth Exchange? On Group Study Exchange? To RYLA (Rotary Youth Leadership)? It's very easy... go to the international ALUMNI database via **MY ROTARY** once you are logged in on www.rotary.org:
www.rotary.org/alumni

Alumni Reconnect Week: 3-9.10.2022: What can you & your club do?

Organise a club meeting, invite all these Rotary Alumni to your club to a special meeting and hear their personal stories how Rotary changed their lives and involve them in your Club projects. Personal stories inspire both Rotarians and non Rotarians, so have an OPEN DOOR meeting and ask each member to invite a non Rotarian to hear your Rotary Alumni so that everyone hears their stories!.....in time they could become Rotaract members, members of the District Alumni Association* (chartered in Sept 2016) or members of your club.

Stay in touch with your Alumni; invite them to tell their personal story..... engage them in your club projects! Get them to register themselves on: www.rotary.org/alumni - where they can meet other Alumni worldwide and join our own District Alumni Association!

! It will be an interesting and inspiring evening!

**When? Either in Rotary Alumni Reconnect Week 3rd - 9th October 2022
OR anytime during October/November**
